Reduced Volatility

Low Expenses & Fees

Strategy Description

- The Multi-Strategy Alternative portfolio is an actively managed, alternative investment strategy with daily liquidity intended to provide diversification and lower correlation to traditional investment strategies.
- Using mutual funds and ETFs, Palladium seeks to provide diversification and low correlation to long-only stock and bond portfolios.
- An investment in an alternative investment product or strategy may be considered speculative and should not constitute a complete investment program.
- This strategy is typically appropriate as part of a total portfolio, for an investor with at least an intermediate investment time horizon, and a moderate-to-high tolerance for risk.

Performance vs. Benchmark

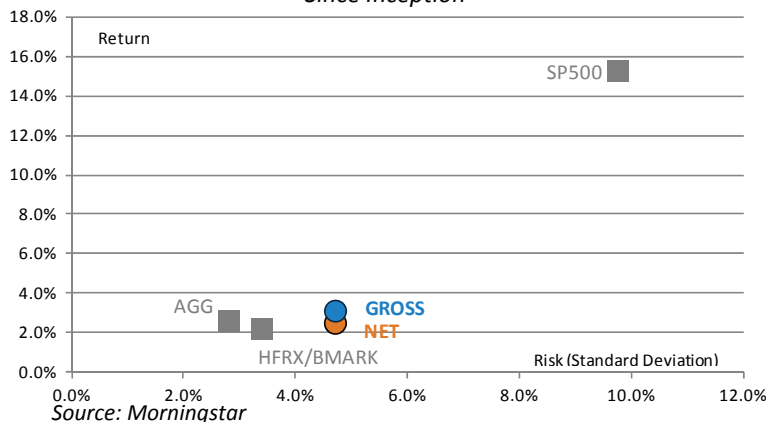

Returns for greater than 1 year are annualized.

See important performance disclosures below.

Annualized Risk/Return vs. Major Indexes

Since Inception*

Source: Morningstar

* Inception Date (INCEPT): 1/1/2012

Benchmark (Bmark): HFRX Global Hedge Fund Index. Indices represent asset classes that may be included in the strategy and are presented to provide perspective on the strategy's historical risk, as measured by standard deviation, in relation to these asset classes. SP500 represents the S&P 500 Index; AGG represents the Barclays Capital Aggregate Bond Index; HFRX represents the Hedge Fund Research Institute Global Hedge Fund Index.

Disclosures: The performance returns shown represent the results of a model portfolio of the investment strategy only and do not represent the results of actual trading of investor assets. The model performance has inherent limitations. Palladium maintains the model and calculates the model performance shown or discussed, but it does not represent actual assets. Thus, the performance shown or discussed does not reflect the impact that material economic and market factors had or might have had on decision making if actual investor money had been managed. While model performance may have performed better than the benchmark for some or all of the periods shown, the performance during any other period may not have, and there is no assurance that model performance will perform better than the benchmark in the future. An investor's actual account is managed by the investor or by an advisor based on the model portfolio, but the actual composition and performance of the account may differ from those of the model portfolio due to differences in the timing and prices of trades, and the identity and weightings of securities holdings. Portfolio performance assumes reinvestment of dividends and capital gains and is net of standard advisory fees payable to Palladium LLC (0.60%) but does not include any other expenses not covered by the advisory fee, which will reduce a client's return. Direct investment in an index is not possible. Index returns assume the reinvestment of dividends and capital gains. Past performance is no guarantee of future results.

The statements contained herein are based upon the opinions of Palladium LLC (Palladium) and the data available at the time of publication and are subject to change at any time without notice. This communication does not constitute investment advice and is for informational purposes only, is not intended to meet the objectives or suitability requirements of any specific individual or account, and does not provide a guarantee that the investment objective of any model will be met. An investor should assess his/her own investment needs based on his/her own financial circumstances and investment objectives. Neither the information nor any opinions expressed herein should be construed as a solicitation or a recommendation by Palladium or its affiliates to buy or sell any securities or investments or hire any specific manager. The information contained herein has been obtained from sources that are believed to be reliable.

It is important to remember that there are risks inherent in any investment and that there is no assurance that any investment, asset class, style or index will provide positive performance over time. Diversification and strategic asset allocation do not guarantee a profit or protect against a loss in declining markets. All investments are subject to risk, including the loss of principal. For more information about Palladium, as well as its products, fees and services, please refer to Palladium's Form ADV Part 2, which may be obtained through your financial advisor or by writing to Palladium.
